

Empathy Map

Date	28-09-2026 to 30-09-2026
Team ID	SWTID-2026-9565
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

Empathy Map

Understand the ServiceNow Incident Management user from four perspectives — what they Say, Think, Do and Feel — in relation to the project problem.

SAYS

- “I need to create the Incident correctly.”
- “I need the required fields to be clear.”
- “I should be able to update the Incident safely.”

THINKS

- “Which information is required?”
- “Will the Incident save if data is missing?”
- “Can I accidentally change the State?”

PERSONA NAME
(Role / User type)

**Service Desk /
Incident User**

DOES

- Creates Incident records
- Selects Impact and Assignment Group
- Updates fields and submits records

FEELS

- Wants a clear form
- Wants immediate feedback
- Wants to avoid incorrect submission
