

Communication

Date	28-09-2026 to 30-09-2026
Team ID	SWTID-2026-9565
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

Communication Plan

The five-member team communicates the project in a clear sequence so the evaluator can understand the problem, configuration and results.

Stage	Speaker / Team Role	Communication Content
Introduction	MUTHU SELVI P	Project title, problem statement and objective.
Requirement & Design	MAHESHWARI R	Incident fields, user journey, requirements and architecture.
Implementation	MADHU VARSHA S	UI Policy, UI Policy Actions and Client Script configurations.
Testing	MUTHU LASHMI M	Five test scenarios and observed behaviour.
Conclusion & Future	LAKSHMANAN	Advantages, limitations and future enhancements.
Questions	All 5 members	Answer configuration, testing and scope questions collaboratively.

Communication Principles

- Use simple technical language.
- Show field behaviour before explaining code.
- Use the same terminology as the project.
- Keep evidence and explanation aligned with the documented implementation.
